

WEEKLY PROJECT PROGRESS REPORT (WPPR)– 3

For week commencing 12 April 2026

Programme: BCA (AI,Cloud Computing & Devops)

Student Name: Kithu Manoj

Register Number: **23BCAICD047**

WPPR: 3

Internal Guide's Name: Mrs Manjula

MAJOR PROJECT Title:

Cloud Cost Intelligence Platform for Finance

Targets set for the week:

Connect the processed dataset to Power BI
Design and develop interactive dashboards
Create visualizations such as pie charts and line charts
Implement filters and slicers for better user interaction
Analyze results and extract meaningful insights
Prepare detailed project documentation

Progress/Achievements for the week:

Connected the processed Excel dataset to Power BI
Designed an interactive dashboard displaying total cloud cost
Created a pie chart to show service-wise cost distribution
Developed a line chart for monthly cost trends
Added filters like slicers for service type and month
Analyzed the dashboard to identify high-cost services and spending patterns
Ensured the dashboard is user-friendly and visually clear

Future Work Plans:

Document data flow, process flow, and implementation steps
Prepare High Level Design (HLD) documents
Compile results, analysis, and screenshots for the report
Finalize complete project report for submission

Implementation shown:

☐

Yes

☐

No
